Yarrowonga Charity Fly in 10th October 2015

The event was not just a fundraiser, it was about using the ability we have as pilots and / or plane owners to excite and enrich the lives of the less fortunate, even if only for the day.

To be able to touch the lives and hearts of others and give them a positive feeling that will last a lifetime is a privilege that I for one will never forget.

Flying out of Moorabbin Essendon and Tyabb our donated aircraft included, a citation jet, king air, chieftain, baron bonanza, lance's, arrows and more. With more donated aircraft on display and involved in the many Joy flights that were undertaken.

A small group of people spent a lot of time in preparation for the event. Making event bags filled with promotional items from the APS along with many other donated goods, chasing donated items for the auction and raffle, and organising tours and other activities to be undertaken over the weekend.

The main event was the joy flights and the boat rides, not to be missed was the jumping castle and face painting, so much fun was had by so many! Approximately 1000 went through the gate, and where fed via BBQ's pizza vans and ice creams, the entertainment didn't stop there though, the live music was extraordinary.

Early morning excitement, late afternoon elation, new experiences, huge smiles and gratitude all round. Thank you Yarrowonga and all involved it was a very special day
